REMARKS

By this Amendment, the specification has been amended to update the prosecution history of this patent application. The specification has also been amended to conform with Figure 25 (a photograph) which had been originally filed in reverse. Specifically, the description of Figure 25 on page 83 of the specification has been amended so that lane 1 is now lane 4, lane 2 is now lane 3, lane 3 is now lane 2, and lane 4 is now lane 1. Thus, no new matter has been added by these amendments.

In addition, claims 12-27, 30, 33, 35 and 36 have been canceled. Claims corresponding to canceled claim 33 have been allowed in parent application 08/212,660. Claims corresponding

LANGLEY ET AL. - DIVISIONAL OF U.S. PATENT APPLN. NO. 08/212,660

to canceled claims 12, 13, 15-26, 30 and 35 are being prosecuted in related application 08/397,320. Claims 14, 27 and 36 were canceled as being redundant over pending claims 1-11, 28, 29, 31, 32, 34, and 37-39. Thus, no new matter has been added by any of these amendments.

Early and favorable action on the merits are respectfully requested.

Respectfully submitted,
